a history of the rochester ny camera and lens panies

May 22nd, 2020 - certainly the kodak 16mm reversal system announced in june 1923 proved to be infinitely more successful and quickly replaced all other systems photostat and rectigraph these early types of document copying cameras using sensitized paper in a large camera with a prism in front of the lens to reverse the image must be included in my story although they have now practically disappeared"
