

Macro Photography Photo Workshop By Haje Jan Kamps

Special techniques for creating unique, artistic, close-up images Macro, or close-up, photography is gaining popularity, and this book covers all of the challenges associated with taking great close-ups: depth of field, focus, and exposure. Copublished with Photoworkshop.com, a leading online educational resource for both beginning and professional photographers, this task-oriented reference allows readers to learn by doing and offers outstanding examples and instructions. Fabric textures. A beetle's wing. A hood ornament. Dew shimmering on a petal. With this essential book, you'll learn to make magnificent photos of little things and small portions of bigger things. Discover what equipment you'll need and how to achieve amazing effects with lighting and depth of field. Test your new-found skills by completing the assignments in each chapter and get feedback at pwsbooks.com. You'll develop a new view of life's small wonders. Experiment with natural light, reflectors, and flash units Recognize macro opportunities in everyday surroundings Discover the fun of the "20-step challenge" Fix common macro problems with digital editing and apply creative effects Biografía del autor HAJE JAN KAMPS has been a freelance writer and photographer as well as an editor.
