

Green River Running Red The Real Story Of The Green River Killer America S Deadliest Serial Murderer By Ann Rule Michele Pawk Simon Schuster Audio

In the most extraordinary journey Ann Rule has ever undertaken, America's master of true crime has spent more than two decades researching the story of the Green River Killer, who murdered more than 49 young women. For 21 years, the Green River Killer carried out his self-described "career" as a killing machine, ridding the world of women he considered evil. His eerie ability to lure his victims to their deaths and hide their bodies made him far more dangerous than any infamous multiple murderer in the annals of crime. A few men eventually emerged as the prime suspects among an unprecedented 40,000 scrutinized by the Green River Task Force. Still, there was no physical evidence linking any of them to the murders until 2001, when investigators used a new DNA process on a saliva sample they had preserved since 1987, with stunning results. Green River, Running Red is a harrowing account of a modern monster, a killer who walked among us undetected. It is also the story of his quarry of who these young women were and who they might have become. A chilling look at the darkest side of human nature, this is the most important and most personal audiobook of Ann Rule's long career.. Green Grass Running Water Analysis eNotes.
