

Vested Interest Box Set Books 1 3 English Edition By Melanie Moreland

USA Today bestselling series from Melanie Moreland**Contain bonus material not previously published**“This is a great idea.”Aiden had jumped up, fist punched the air, and yelled, “That’s how we do it! BAM!”It stuck. Our initials, our ideas, our brand. My brothers.BAMThree young men meet in university and form a lifelong friendship.Their pasts dictate the men they are, but their present shapes their future.What happens when these men meet the one person they are destined to be with? Can they fight their feelings and walk away? Or will they each succumb and learn the sweet agony of love?BentleyThe leader of the group. He is uptight, formal, and cold. Rigid and set in his ways, always following the same path. Until the day, he stumbles upon her.Emmy.She brings with her spontaneity and light. The world she lives in is so different from his, yet he cannot control the draw to her. Nor can he explain the way she makes him feel.Happy.Protective.Loved.AidenHaunted by memories of his past, Aiden plays the part of the happy-go-lucky friend. Always ready with a teasing smile or a joke, he is good at hiding his pain.Using his impressive physique as a shield, he keeps his past buried beneath his rugged exterior.Except, one woman sees through his façade.Her green eyes see too much, even as her body tempts him.Even as his heart yearns for her.Cami is determined to make him realize that he is worthy of being loved.He pushes her away at every turn, yet finds himself unable to keep her at arm’s length.Who will win this battle of love?MaddoxBrought up in chaos and fear, Maddox requires order and control to cope with life.He has his career and two closest friends. That is all he needs.Until Dee enters his life.She brings forth feelings he has denied himself his entire life—and threatens his control.He wants to hold.Keep.Love.Live.Damaged by her past, Dee cannot admit her feelings for him, fighting him at every turn.Is he strong enough to show her—to prove love is worth the risk for both of them?.
