"Werbetext A life-affirming, inspirational modern fable about love, life and daring to be different Klappentext The life of the salmon is a predictable one: swimming upstream to the place of its birth to spawn, and then to die. This is the story of a salmon whose silver scales mark him out as different - who dares to leap beyond his fate. It's about growing up, falling in love and discovering your place in the world. For swimming upstream means pursuing something the salmon cannot see: a dream. Translated for the first time into English (though it's already sold over two million copies worldwide), The Salmon Who Dared to Leap Higher is a wise, tender and inspiring modern fable about finding freedom and a harmony with nature we may have lost sight of in the rush of modern life. Buchr¼ckseite Sometimes, as night was falling, Silver Salmon poked his face up out of the water and watched those myriad points of light wink on, gradually lighting up the blackness. More stars, perhaps, than there were drops of water in the ocean, each boasting its own unique light, were strung together to form the Milky Way, a pale splash against the black. Were they the sky's own eyes, a friendly gaze looking down? Åber den Autor und weitere Mitwirkende Ahn Do-hyun is a multi-million bestselling, award-winning Korean poet.
