

David Lean A Biography By Kevin Brownlow

"Amazon.de David Lean directed a number of grand films, among them 'The Bridge Over the River Kwai', 'Lawrence of Arabia,' 'Dr. Zhivago,' 'Ryan's Daughter,' and 'A Passage to India.' Despite the length and breadth of these movies, he meticulously arranged virtually every shot. The results, of course, are some of the most enduring works ever put on film. This tribute to Lean, who died in 1991, is told in Lean's own words and in the words of those who knew him best. It is a comprehensive look at the director and his often combative relationships. Der Verlag Ã¼ber das Buch **A giant of a book**The production qualities of the book are on a par with the life and work of the film genius himself. The hefty volume weighs in at a half pound in more than 800 pages with more than 150 black and white photos and sixteen pages of color illustrations. It is a monumental bit of book-making worthy of the splendid text of Kevin Brownlow, probably the finest writer on film in the English language. Although filled with interesting personal information on the director, the book is a virtual textbook on the making of epic film, book-into-film, and motion picture production and finance. Caution: the book could in the long run cost you a good bit more than the \$40 (less Amazon discount if applicable) because one is sorely tempted to view every film mentioned in the text. This is the ultimate gift book for the film buff and scholar. You won't believe the beauty of this book until you hold it in your hands.--Robert B.
